

Foster Addition and Renovation

State College, PA

Scope: Kitchen, Family Room, Performance Upgrades

Performance: Dense-pack cellulose insulation and spray foam insulation in walls, ceiling and crawlspace. Additional attic insulation with ventilation and air-sealing, high-performance ductless mini-split HVAC upgrade.

An outdated and underbuilt existing addition to this older home received a full gut-renovation, including new roof structure, windows, finishes, and the addition of a half-bath. The inefficient and outdated kitchen was gutted and modernized to accommodate a growing family and an urban Sense of style. The entire home received an electrical service upgrade, new wiring, new roofing, and energy-efficiency upgrades.
